Product numbers, part numbers, model numbers, invoice numbers or other unique identifiers may be used where appropriate.

When completing the certification for multiple shipments of identical originating products, the period cannot exceed **12 months**. All importations of the same products must occur within the period indicated. If the products are identified on an attached listing, an identifiable reference number must be indicated on both the certification and the listing. If numerous products are involved, an Excel spreadsheet is preferred in electronic format and should be sent along with a copy of the certification to:
