Certification of origin under the Canada-United States-Mexico Agreement (CUSMA) is not required to follow a prescribed format but must contain a set of minimum data requirements as set out in Annex 5-A of the agreement.

You may complete the attached template or provide certification in another format that includes all necessary data elements for a claim for preferential tariff treatment.

Is this a Blanket Certification?: If the certification covers multiple shipments of identical goods for a specified period of up to 12 months, select "YES" from the drop down and complete the From and To dates in the applicable fields. If this is a one-time certification, select "NO" and enter a unique identifier in the Invoice # field.

Certifier Details: Provide the certifier's name, address (including country), telephone number and e-mail address.

Exporter Details: Provide the exporter's name, address (including country), e-mail address and telephone number if different from the certifier. Producer Details: Provide the producer's name, address (including country), e-mail address and telephone number, if different from the certifier or exporter or, if there are multiple producers, state "Various" or provide a list of producers. The address of a producer shall be the place of production of the good in a Party's territory.

Importer Details: If the certification is completed by the Exporter or Producer, provide, if known, the importer's name, address, e-mail address and telephone number. The address of the importer shall be in a Party's territory.

Description of Goods: Use the drop down to indicate if you will be listing the product details on the template or providing a separate list to be included with the certification.

If providing a separate listing, indicate the invoice number or other unique identifier related to the list of goods. The description, classification and origin criterion must be included on the listing.
